Name: _____ Datum: _____

Text: Sixteen-year-old Aisha Rahman from Leeds has won the Young Engineer of the Year award for a device that turns the movement of a school bag into electricity. „Students carry heavy bags for hours," she explains. „That energy is wasted." Her small generator produces enough power to charge a phone during a school day. She developed the idea in a school club and tested it with 30 classmates for six weeks. The prize is 10,000 pounds. She wants to make the device cheaper so that schools in poorer countries can use it for lamps.

3 Reading (6 points): Read and answer.

Own words where possible.

a) What does Aisha's invention do?

.....

b) Explain „That energy is wasted" in your own words.
